TV Ceiling Bracket Swivel

TV ceiling mount from Hama

Whether it be a sloping roof or crowded room walls, if the TV is to be placed where there is actually no room for it, things often become difficult. The TV ceiling mount from Hama provides the perfect solution. The advantage: the height of the ceiling bracket for the TV can be precisely adjusted. This allows the bracket to be adjusted exactly to the size of the TV set and at the same time to suit the sitting position. For

even more flexibility in the choice of location, the bracket can be rotated by 100 degrees. The ceiling mount is suitable for flat screens weighing up to 40 kilograms and with a diagonal of 32 to 65 inches or VESA standard of 75x75 to 400x400. To ensure that even the largest monitors stay in place, the

bracket comes with the appropriate mounting material including Fischer plugs. The secured fastening ensures a stable hold and prevents the TV from accidentally unhooking and falling down.

Item No. 118086 TV Ceiling Bracket Swivel, Height-adjustable, 400x400, 165 cm (65")

About Hama

Founded in 1923, Hama today accompanies people in all situations every day with around 18,000 accessory products.
