Bags and cases from the Hama "Extreme Protect" series

### Notebook and tablet in shockproof packaging

Safety is the top priority with the Hama "Extreme Protect" bag series. In collaboration with D3O, the global market leader for impact protection, the company has now also created cases and a backpack for notebooks and

tablets which offer the best impact, drop and scratch protection thanks to extremely hard-wearing material.

#### How **D3O** works

The patented D3O material, originally known from motorbike protective clothing, absorbs the impact energy, dissipates it and thus offers highly effective impact protection. For good reason, Hama is now also equipping

cases for notebooks, mobile phones and tablets with this technology. The "Extreme Protect" series is commercially available for a wide range of appliance types and sizes.

- Item No. 227050-51** Laptop Bag Extreme Protect
